Join MSU Health Care as we welcome our newest faculty member, Dr. Arya Khatiwoda. A 2013 alumna of MSU’s College of Osteopathic Medicine, Dr. Khatiwoda is also a 2018 alumna of the Sparrow Hospital Urology Residency Program. While at MSU, she was elected to serve as one of four students on MSUCOM’s Diversity Committee, and served as a research assistant for the MSU Department of Epidemiology and the Michigan Institute of Urology.

At the 2014 Mid-Michigan Research Forum, Dr. Khatiwoda was the second-place winner for her poster presentation entitled, ‘Renal cell carcinoma in the pediatric population: Case presentation and brief literature review.’ In her free time, she enjoys travelling, cooking, and reading.

Dr. Khatiwoda joins our multi-specialty group as a Urologic Surgeon to adult patients. She is adding to our complement of 260 providers performing cutting-edge research, teaching medical and nursing students, and providing exceptional care to the Greater Lansing community.
