

Ryan Thomas, MD

MSU HealthTeam welcomes our newest faculty member, Ryan Thomas, MD. A Michigan native, Dr. Thomas received his undergraduate degree at MSU's Lyman Briggs College in Astrophysics. Dr. Thomas most recently completed his fellowship at the prestigious Rainbow Babies and Children's Hospital in Cleveland, Ohio. Here, Dr. Thomas gained experience in the treatment of respiratory illness with special interest in cystic fibrosis, rare lung disorders, and the treatment of pulmonary complications of neuromuscular disease such as spinal muscular atrophy.

A champion of correct antibiotic dosing for cystic fibrosis patients, he has participated in quality improvement projects, and presented nationally on the topic. His fellowship research studied the potential link between the acetaminophen and the development of asthma in children.

Ryan Thomas, MD, joins our multi-specialty group as a Pediatric Pulmonologist. He is adding to our complement of 260 providers performing cutting-edge research, teaching medical and nursing students, and providing exceptional care to the Greater Lansing community.

SPECIALTY

Pediatric Pulmonology

CLINICAL INTERESTS

Asthma

Cystic Fibrosis

Rare lung disorders

Pulmonary complications of
Neuromuscular disease

MEDICAL DEGREE

Wayne State University School of
Medicine, Detroit

RESIDENCY

Pediatrics, Beaumont Children's
Hospital, MI

FELLOWSHIP

Pediatric Pulmonology, Rainbow
Babies and Children's Hospital,
Cleveland, OH

CERTIFICATION

American Board of Pediatrics

AFFILIATIONS

Sparrow Hospital
