Samantha Kennedy, DO

Please join us in welcoming our newest team member, Dr. Samantha Kennedy, to MSU Health Care. Dr. Kennedy is a distinguished alumna of MSU’s College of Osteopathic Medicine. She completed her Psychiatry residency and her Child and Adolescent Psychiatry fellowship at MSU as well. She has a clinical interest in eating disorders, specifically those afflicting athletes. Dr. Kennedy has researched this topic in depth; she has developed a screening tool, currently awaiting validation, to identify eating disorders in athletes: male and female, every level of competition and for all sports.

To read more about Dr. Kennedy, visit [http://psychiatry.msu.edu/](http://psychiatry.msu.edu/).

Dr. Kennedy joins our multi-specialty group as a board-certified Psychiatrist. She is adding to our complement of 260 providers performing cutting-edge research, teaching medical and nursing students, and providing exceptional care to the Greater Lansing community.
